Sprint Goals	User Story	To Do	Doing	Done
November 18 - The purpose of this sprint is to determine who does what in the group, as well as write up user stories and our to do lists. We created the github, wireframes, and begun working on redesigning the website. November 20 - The purpose of this sprint is to create the color scheme, font for the page, and start adding the pages together and seeing everyone's progress.	As a user I would like to scroll through the news page without having to scroll all the way down. I also would want the Team and Advisers to look more neater and don't know why there is a huge white space on the page. So that this will be more easier to read everything without me having to keep scrolling down.	Implement a Slide Show on News Page Implement a Bootstrap format for rows and columns on Company Page	I am working on the javascript code to add the news images along with the links to each image. I am using the Bootstrap format to center the images my rows and columns in a 3 column than 2 column than 3 column than 2 pattern. I am going to use css with the template from group	I have completed the slide show and company page using bootstrap Nov 22 2019
